abedallah.kamoun@gmail.com

Personal Website:

<https://abedallahkamoun.github.io/MyPortfolio/>

A Junior Full Stack Web Developer, experienced with many stages of the development cycle for dynamic web application projects, a hard-worker with a flair for creating elegant solutions in the least amount of time. Well-versed in numerous Front-End & Back-End programming languages. Passionate about building world class web applications.

Objective

My goal is to expand my knowledge in designing, developing and maintaining the next generation of web applications, and obtain a challenging position where I can apply creative problem solving and lean management skills with a growing organization or business individuals, and utilize my skills to gain further experience while enhancing the organization's performance and reputation.

Summary of Qualifications

- Multitasking, Fast learning ability
- Leadership, Decision making
- Complex problem solving
- Ability to perform under pressure
- Creative design
- Time management and respecting deadlines
- Cooperative and a team player

Hard Skills & Known Programming Languages

- HTML5, CSS3, Bootstrap, JavaScript, jQuery as Front-End Languages & Angular10 as a Framework.
- Node JS, Typescript, PHP as Back-End Languages & MSSQL Database as a DBMS.
- RESTful Web API programming, .Net Core C#, GitHub CLI & Pages, Heroku CLI & Hosting.

Experience

Full Stack Development Trainee - 2020 to present

Laser-Lebanon, North-Lebanon: <https://laser-lb.org/en/>

- Learned various Front-End & Back-End programming languages.
- Trained as a Full Stack Web Developer responsible for developing end-to-end web applications.

- Developed flexible, maintainable and scalable application components using Angular10.
- Wrote well-designed, reusable and efficient code using best development practices.
- Learned to integrate data from various -already developed- Back-End services.
- Learned to design and implement MySQL databases, perform CRUD applications and write SQL queries.

Web Developer - 05/2021 to present

At **Creative Vision**, Tripoli - Lebanon:

- Maintaining full, dynamic and responsive under construction websites (Front-End & Back-End).
- Creating useful and reusable code using various Front-End & Back-End languages helpful in creating world class websites.
- Leading a group of undergraduate junior developers.
- Learning many new web development skills in a training organized by Creative Vision's team.
- Extracurricular projects with Creative-Vision team:
Designed and built 2 fully responsive Front-End websites from scratch:
 1. <https://abedalkamoun.github.io/IntoTail/>
 2. <https://le-sultan.com/>

Freelance Website Developer - 01/2021 to 05/2021

Personal Website for **Prof. Samer Al-Fayad**, Paris - France:

<https://drsameralfayad.github.io/PersonalWebsite>

- A personal website for a full professor in robotics systems at UEVE and Paris-Saclay University representing his projects, patents and publications.
- Developed, designed and maintained a medium sized website project integrating data from multiple Back-End services, using NodeJs, HTML, JavaScript and Bootstrap.
- Executed a personal website development project for a University Professor with internal personal needs.
- Performed technical design reviews and code reviews.

Personal Website for **a university student**, Tripoli - Lebanon:

<https://corrupting-north.000webhostapp.com/index.html>

- Executed an ecommerce website for selling specified products with online payment.
- Developed and designed a small sized website project for client and internal needs using HTML, JavaScript & bootstrap.
- Created many MySQL databases using XAMPP.
- Received and posted data from and to databases using PHP & PHP MyAdmin.

Freelance Python Application Developer - 03/2021 to 04/2021

Python Email Sender App for **Meethaq Academy**, Saudi Arabia:

<https://github.com/Abed-AlRahman-Kamoun/PythonEmailSender>

- Used Python(Tkinter, SMTP server...) developing an email sender application for multiple recipients exceeding 200 users with specific attachment for each user.
- Received recipients' information from a Back-End Excel file.
- Designed, built and maintained efficient, reusable and reliable code leading a group of 3 people.
- Maximized the application's efficiency, data quality, operability, and flexibility.

Education

Bachelor of Science: **Computer Science** – 2020 to present

Lebanese University Faculty of Science, North-Lebanon

- Excelled in user experience and user interfaces.
- Favorite area of study: Web Development & Relational Database Management Systems.
- Extracurricular projects:
 1. Built a working image search Angular web application requesting data from Pixabay server:
<https://abed-alrahman-kamoun.github.io/ImageSearchApp/>
 2. Designed and developed a website requesting data from already developed -by me- RESTful web API deployed on Heroku:
<https://abed-alrahmankamoun.github.io/FirstWeb/>

Languages

- Arabic: Native
- English: Fluent
- French: Intermediate
